Approach to Gaming Disorder Research

Computer Entertainment Supplier's Association(CESA), Japan Online Game Association(JOGA), Mobile Content Forum(MCF), and Japan esports Union(JeSU) announces that the four organizations will entrust planning and coordinating the investigation a study group of external experts with a fair and neutral perspective (Representative: Akira Sakamoto) for a purpose of evaluate scientifically proven effective measures to correspond to the social demand following the movement of the World Health Organization (WHO) to add "Gaming disorder" to the International Classification of Disease.

We will announce the research progress through official websites. The four organizations will continue to work on various activities for the healthy growth of the video game industry.
